The Honorable Roswell Gilpatrick
Deputy Secretary of Defense
Washington 25, D. C.

Dear Ros:

Attached is a CIA Current Intelligence memorandum reporting on a study made of photographic coverage of the area around Guantanamo. The memorandum and the attached annexes are self explanatory.

I have ordered COMOR to place this area on the highest priority, and have asked our Office of Current Intelligence to keep this area of Cuba under continual study and to be prepared to recommend low-level photography should U-2 photography or other intelligence indicate threatening moves.

In addition, I will discuss this subject at the United States Intelligence Board meeting on Wednesday, December 12.

Sincerely,

Defense
John A. McCone
Director
